* may vary due to variations in paper and power supply

The dual roller feed system folds a wide range of paper stock.

A powered exit conveyor ensures smooth ejection of folded paper.

FEATURES

- dual roller friction feed system folds a wide variety of stocks, including carbonless sheets
- adjusts in seconds for standard and custom folds
- variable speed control
- powered exit conveyor
- sheet separation from top of fanned stack
- polyurethane foam rollers eliminate the need for fold roller pressure settings
- heavy-duty, non-flexing side frames
- needle bearings for high speed production
- options include an extended delivery system, crossfold for right-angle folding, and slitting, scoring, and perforating attachments
